CO-SLEEPING WITH SECURITY IN BED SHARING:

-In case of sharing a bed with parents, avoid unnecessary risks or that the child is caught involuntarily by one of them causing an accident.

- The parents can sleep more.
- Babies rest more hours.
- Lactation becomes easier when you have the baby next to you.
- Sleep in the same room as the baby reduces the risk of sudden death by 50%.
- The anxiety of separation from their parents does not exist in newborns.
- Babies wake up happier.

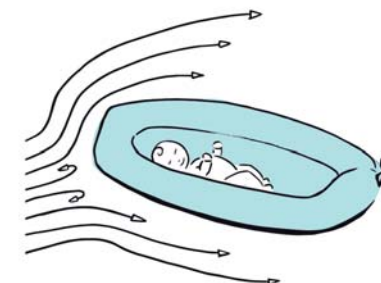

ADAPTABLE TO GROWTH:
during the first months the baby grows fast, therefore, loosening the lower lace you will allow to give him/her more freedom in the area of legs.

CRIB REDUCER OR TRAVEL CRIB:
it provides a comfortable environment for the baby, maintaining an environment of small dimensions, similar to the mother's womb.

SAFETY PLACE ON THE FLOOR:
if you are in a hurry, you can place your baby safely & cozy on the floor into the baby pad pillow.

AVOID AIR STREAMS:
it's a versatile item that embrace your baby and provides a safe environment that protect against excessive air streams.
