

Babette Wasserman

LONDON

Classically trained at Central St Martin's College of Art, Designer Babette Wasserman has been creating collections of original jewels and cufflinks under her own label since 1997.

Our innovative manufacturing techniques coupled with our inventive design makes our collections unique! We use a range of hand carved semi-precious stones, Swarovski Crystals® and the highest quality of Italian leather to create the finest products. All our pieces are handmade and packaged in our beautiful signature purple boxes and pouches.

Based in London's Notting Hill, Babette Wasserman designs cufflinks, men's bracelets, tie pins and key rings. Inspired by a rich English heritage, fused with innovative materials, fine craftsmanship and of course a splash of British humour, these pieces make the ideal gift for the discerning man.

From humble beginnings in 1997, the Babette Wasserman brand is now available in over 200 of the most luxurious jewellery shops, boutiques and department stores in the UK and is sold globally such as Fortnum & Mason, Bloomingdales, Isetan, Barneys New York to name but a few.
