

# AiZEA

*[a-i-çéa]: the "wind" in Basque language*

AiZEA is a Maison of haute maroquinerie, with a Basque identity. The founder, Joakin Echeverria, creates accessories for men which reflect his values and the authenticity of his native region. Elegant. Functional. Generous. AiZEA goes to essential, with heart, and a touch of pepper.

## **Born from a passion for leather**

His collections reflect Joakin's love for leather. He particularly enjoys relief materials such as finely grained skins or scales.

His leather of heart is the Taurillon, which he sources from an historic tannery in Espelette, located in the Basque Country. He loves this leather, a natural grain, as velvety as robust. Vibrant. Especially in the depth of its colors.

His background led him to work the precious leathers, like the Python and wild mississippiensis Alligator. Joakin masters the art of jigging and cutting to create exceptional pieces. The skins are selected according to the strict rules of the CITES certification, guaranteeing the protection of the species.

AiZEA makes his pieces in the French and Spanish Basque country, as well as in Portugal, in workshops that value the hand, the know-how, and the know-how-to-be.

## **Crafts and heart**

The AiZEA style is imbued with the Basque country. He is raw, masculine, precise. We find the graphic lines of the Basque ball pediment of the emblematic Villa Leihorra. The geometry of its Art Deco architecture, the whitewashed facades inspired each of its collections. We plunge into the colors of the region: chilli red, bottle green, ultramarine blue.

Joakin values the function, and the beauty of the finishes.

## Our collections

Each of the collections is thought for the trip. From the briefcase to the travel bag, all the details make sense. Leather patch pockets for smartphone, business cards, large zipped pocket, the bottom of the bag is in leather, and a compartment to securely store your tablet.
