The companies of e-P Summit 2022

3RAND UP SOLUTIONS
Specialized in the design and implementation of solutions to give digital identity to products (serialization, anti-counterfeiting, traceability and customer engagement); the company deals with all-round digital transformation with innovative B2B and B2C solutions for B2C and B2B Digital Commerce, remote selling, virtual showrooms and sustainability.

ASSYST
Using Assyst's 3D software suite, you can go from idea to production in a few weeks, reducing development time-to-market, minimizing costs and waste, assuring accurate digital sizing & fitting – thanks to realistic avatars – and helping make your company more sustainable.

BESIGHT
Modular, scalable and completely open cloud systems, designed to integrate with the main departmental industry solutions through the use of REST API services. A post-modern ERP system and a platform for fast application development, designed for the fashion & luxury market: Sales & Distribution, Material Management, Product Management.

CREA SOLUTION
2D / 3D CAD, MTM, PLM and PDM solutions as well as the possibility to integrate them with the company management systems.

DYNA BRAINS
The SAP Boutique and Neptune Software consulting company guides customers in the corporate digitalization process, identifying and developing solutions that can be integrated on SAP and any other ERP, in multiple languages and through different technologies, for a simple and efficient management of any process.

HYPHEN – GROUP
One integrated ecosystem of skills, solutions and services for the construction and management of the Brand's Digital Content Factory from the organisation of production and post-production workflows of content, to its distribution to the promotion and omnichannel sales channels.

JOOR
The world's premier wholesale management ecosystem, connecting brands and retailers globally to deliver seamless management.

LECTRA ITALIA
Drafting premium technologies that facilitate the digital transformation of companies in the fashion industry and beyond.

LOGIC & DV 5
Logic's experience in the design and construction of automation systems come together with DV-5's expertise in the creation and supply of software and services based on artificial intelligence, augmented reality, block chain and cloud computing to give life to the most complex projects.

OT CONSULTING
Helping companies develop new business areas, optimize existing processes, and rapidly respond to changes in markets and organizations.

PRISMA TECH
Luxottica, OTB, Miroglio, Colmar, Moncler, and Hugo Boss are just some of the companies that rely on Prima Tech for product development processes and corporate digitalization, with solutions ranging from virtual prototyping to software to reduce delivery times and the number of reworks.

PROTOCUBE REPLY
Solutions to create and manage 3D resources: Protocube Reply enables an end-to-end platform capable of importing, managing and varying the 3D Digital Twins of the products, automatically generating the assets that must be distributed in the various corporate digital channels.

REMIRA
One of the leading providers of intelligent supply chain and omnichannel solutions for companies in all sectors. REMIRA supports its customers in the areas of planning, purchasing, production, transport, logistics and trade across the entire value chain.

S3K
Thanks to its innovative approach to security and its muldisciplinary offer, S3K aims at guaranteeing resilience, with particular attention for the following main contexts: IT/OT, AI, Big Data, Data Science & Analytics, Cybersecurity and Cloud.

SEDAPTA
25 years of experience in Manufacturing Operation Management and Supply Chain Management, including logistics and transport chain management processes. Innovative solutions to ensure that the new challenges posed by digital transformation are turned into new opportunities, promoting an increasingly sustainable corporate approach.

SOPRA STERIA
The European Tech leader recognised for its consulting, digital services and software development, provides end-to-end solutions to make large companies and organisations more competitive by combining in-depth knowledge of a wide range of business sectors and innovative technologies with a fully collaborative approach.

TESISQUARE
A leading partner to build digital supply chain ecosystems where people, data, technologies and processes are interconnected, ensuring operational excellence throughout the value chain - from supplier to consumer.

VISTEX
The enterprise resource planning (ERP) software company trusted by brands such as GM, Barilla and Serta-Simmons to manage pricing, trade, royalties and incentives, making sure every euro spent or earned is properly invested for business growth.

WÜRTH PHOENIX & K3

The partnership between the consultancy part of the Würth Group, world market leader in selling assembly and fastening material with extensive international project management experience, and retail technology expert K3 resulted in an innovative ERP platform that integrates Microsoft Dynamics 365 and offers the fashion industry concept-to-consumer solutions.

ZAKEKE
A comprehensive suite of tools that seamlessly empowers brands to customize product offerings in 2D, 3D, Augmented Reality, and Virtual Try-on solutions. Zakeke is cloud-based, cross-platform, multi-lingual and can integrate with any eCommerce or retailer's back-end.
