In the "FOREST GUM" collection, the strong color harmony of Pacific pink meets the watercolor brush technique, achieving a sincere yet strong harmony. Bringing dynamism to color contrast with brush strokes, the tropical floral pattern brings the harmony of the pleat and organza collection together with voluminous dresses. The strong color combination gives this theme a new twist.

"BE A FLOWER" is a theme that can be every young girl's dream. Abstract-sartorian floral patterns, the strongest tone of lemon yellow and the warmth of cloud blue accompany us in the collection. Layered veil dresses combine with asymmetrical frills to create a silhouette that is both comfortable and elegant. Enriched with fabric prepared with the Pott square technique, the theme reveals a new look.

Going on a picnic has never been this exciting. Pott squares in Lia Lea, which is in the "JUNGLE PICNIC" collection, make it look strong with stitching details. While happy prints carry the warmth of summer in the details, the comfortable touch of poplin makes the collection look rich with the touch of cotton. It helps the forest-themed geometric patterned picnic environment to instantly gain the warm effect of the dream world.

Our special pattern, prepared with the theme of "COLLECT ART" opens the doors to a world of imagination that arises from the unity of different patterns in the logic of collage. The warm and cold color harmony of blue, pastel pink and mustard yellow polka dots and abstract daisy patterns bring a new style to the ceremonial group on special days of the summer season. The sophisticated romantic look created by columnar dresses with shiny surface fabrics creates a new silhouette with different styles.

ISTANBUL - LONDON - BARCELONA

Lia Lea brand builds a bridge between generations and continents in the 2023 Spring Summer Collection, where each theme complements each other in a puzzle logic.

The brand, which has a wide range of designs from London to Italy, from America to the Middle and Far East, catches the eye in patterns.

Distorted new images of animal figures, graffiti patterns, abstract flower patterns created by presents integrity in a collection that is consolidated from its structure.

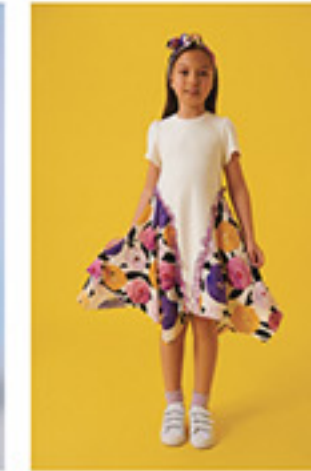

An intimate union of artistic geometric brush strokes under the theme of "ART DECO". Powder pink meets the strongest tone of green, yellow and aqua blue. Bringing together its splendor with sports details in its designs, the Lia Lea brand gains a new artistic look.

The bridge, which is formed by the combination of line pattern and unique peach patterns, creates the "I NEED A VITAMIN COLLECTION". The unique creative integrity that brings together 2 different themes, the most beautiful shade of peach, green and asymmetrical frill details and bead peach embroidery techniques add strength to the collection. Its fabrics are ready for the summer season in a comfortable, colorful and spacious integrity.

The "FLOWER EFFECT" which displays the harmony of blurry effect flowers with ochre yellow, cranberry pink and lavender purple, is the best part of being sports-romantic chic. Drawing a romantic silhouette with flounce details combined with organza and print, the theme adopts spring.

With the title "GIRL FROM SICILY", the rainbow, in which a young girl puts her imagination on paper, adds color to a water-themed collection that also includes roles. While the harmony of sea lines with linear patterns gives a different look, the collection catches your dreams with vermilion red.
