A winter edition that turns the spotlights on the most interesting international proposals. A large space will be dedicated to research, with reference brands and new names that have chosen Pitti Bimbo as a launchpad for promoting themselves. The exhibition itinerary has been expanded and involves new pavilions, spaces in which all the inner souls of kidswear will find a way of expression, with interesting contaminations that range from family lifestyle to kids' bedroom design, from toys to beauty products and publishing. Like an exclusive department store, each time the event reinvents an original brand mix, enriching it with events, collaborations, world premieres and lots of ideas to reflect upon. The focus on sustainability is confirmed as a central feature of this edition. Street style returns among the emerging trends, while the Apartment project will have an even more contemporary look. There will be two new Editorials and lots of Pop Up proposals will transform the exhibition itinerary into a colorful and engaging experience.

**THE ITALIAN GOVERNMENT and ITALIAN TRADE AGENCY (ITA)  
support the winter editions of the Pitti Immagine fairs**

The Italian Government and ITA – the Italian Foreign Trade Promotion and Internationalization Agency which works for Italian companies are promoting the role of Florence in the internationalization strategy for Italian fashion by supporting the Pitti Immagine 2023 winter fairs, offering an essential contribution to the program of incoming delegations of top foreign members of the trade, the communication projects and special events.

**UNICREDIT PITTI IMMAGINE'S MAIN PARTNER**

Pitti Immagine's three-year collaboration continues with UniCredit, the pan European banking Group determined to maintain strong roots in the territories and a wide-ranging relationship with the communities in which it operates, supporting them on multiple fronts. "The support the bank gives to Pitti Immagine" **emphasizes Annalisa Areni, Head of Wealth Management & Private Banking Italy UniCredit**, "is further confirmation of UniCredit's determination to accompany the development of the territories. In fact, it is carried out on several fronts, through the daily commitment of our people and our network, and also supports special initiatives of importance for the communities and the production fabric. Our main objective is to offer a prompt response to their requirements. For this reason, for example, in September we launched UniCredit for Italy, an operational program through which we will also be making available a maximum of € 5 billion to help companies and citizens cope with the rises in energy costs and raw materials and with the global economic downturn. It is with these initiatives that UniCredit strengthens its role as a partner for the sustainable development of the country."

## **PITTIWAY: the new theme of the Pitti Immagine winter fairs**

The desire to restart is present in all of us, but choosing the best direction, orientation, and decisions to make is not easy. Directions, stimuli, inspirations, and needs are not always congruent with one another, and it is not possible to proceed in a straight line. **PITTIWAY**, the theme of the next Pitti Immagine winter fairs, is the result of a joint effort between creative talents and artists of the highest level, coordinated by creative director Angelo Figus. **PITTIWAY** interprets today's moods and ambitions, transforming them into the leitmotif of the ad campaigns and layouts at the Fortezza da Basso. **A chromatic and dynamic result, combining pop and street themes, which in the campaign conceived for Pitti Bimbo 96** is expressed in the video presented by **director Leonardo Corallini** and interpreted by little Nina, Oceano and Sergio. "PITTIWAY underlines the many possible choices we must consider in order to exit from the complicated global gridlock", **says Agostino Poletto, general director of Pitti Immagine**. "In this moment that is difficult, yet also creative, innovative, and diverse, the Pitti Immagine shows will be a compass for defining new directions, conceiving possible pathways, and considering the possible choices to then restart. At the Fortezza, there will be routes, turn signals, curves, and U-turns for cruising at fast speeds. A sometimes-contradictory pathway that demonstrates an inexhaustible energy: the same that leads towards the new directions, which are all still possible, of the future".

## **PITTI BIMBO EDITORIALS:**

Editorial research dedicated to concept stores, a rendezvous for contaminating collections and looking into new worlds. The stylist, Maria Giulia Pieroni, explores the themes of the latest trends and translates them into exciting layouts. Once again at this edition, two special Editorials to explore at the Fortezza and online on Pitti Connect:

### **My First Snow**

Fatal attraction: the first snow, an emotion that never melts. Playing, taking the first sporting steps, trying new experiences, falling down, getting up again, immersing oneself. The mountain wardrobe, when it gets cold, is no longer unwelcome, uncomfortable, but has a fun, creative, surprising function. Small skiers, shaky snowboarders, bob and toboggan teams, fully equipped, giving it a go but with a certain style. And always covered in snow.

### **Cool School**

An opportunity to choose between a rainbow of creative, amusing, pleasant, ironic objects: school time is not boring. An extraordinary shopping trip that is renewed every year, always exciting, always stimulating. A time that never fails to arrive, that kids wait for impatiently. Choosing their own diary, new exercise books, the satchel or backpack, pencil case, the array of pencils or even a simple rubber are magical experiences. A friendly kit: back to school becomes Cool School.

## **The special participations and "fun activities" at Pitti Bimbo include:**

### ***DOPPIO GIOCO: the Style Piccoli photographic exhibition***

What direction will fashion take next spring? The snaps in the feature by **Daniela Stopponi** with **Luciano Pergreff** for **Style Piccoli** magazine will attempt to show us as each brand chosen identifies the season's cult garment and entrusts kids with interpreting it, through their own emotions, gestures and expressions. In order to amplify the trend-direction and visualize it even more effectively, the image is doubled, like an Andy Warhol multiple or as though the child has met their twin.

## **PAUL&PAULA SCAVENGER HUNT for Pitti Bimbo 96**

From an idea of the lifestyle blogger Peggy of Paul&Paula, a journey inside the Fortezza to find your PittiWay through clues and discover luxury fashion, lifestyle brands, and newcomers. ### ***The projects dedicated to books designed for concept stores:***

#### **\_ LUPOGUIDO**

The child's world is no longer seen just through the wardrobe, but with an eye that extends towards different worlds and, in particular, beautiful books. LupoGuido hunts for lots of stories, told not only through selected words, but also with special illustrations. Plots constructed directly for children, without stereotypes or prejudice, aiming only to capture their imagination. LupoGuido's instinct leads to new authors and valuable catalogues of the past, from the North to the South of the world, without exceptions, in the wake of ethics and esthetics. A book as a gesture to be offered and not as an object. LupoGuido is a precious high-quality selection for all concept stores and for anyone choosing something special. At the Cavaniglia Pavilion.
