

MAYME?
scents have no borders

A hand holds a clear glass perfume bottle with a black cap and a label that reads 'MAYME?'. The bottle is positioned in front of an airplane window, which looks out onto a vast expanse of white clouds under a clear blue sky. The scene is captured from a first-person perspective, looking out of the window.

The first-ever perfume brand founded by an experienced flight crew, MAYME? offers olfactory journeys limited only by imagination.

We firmly
believe that
scents have no

OUR CONCEPT

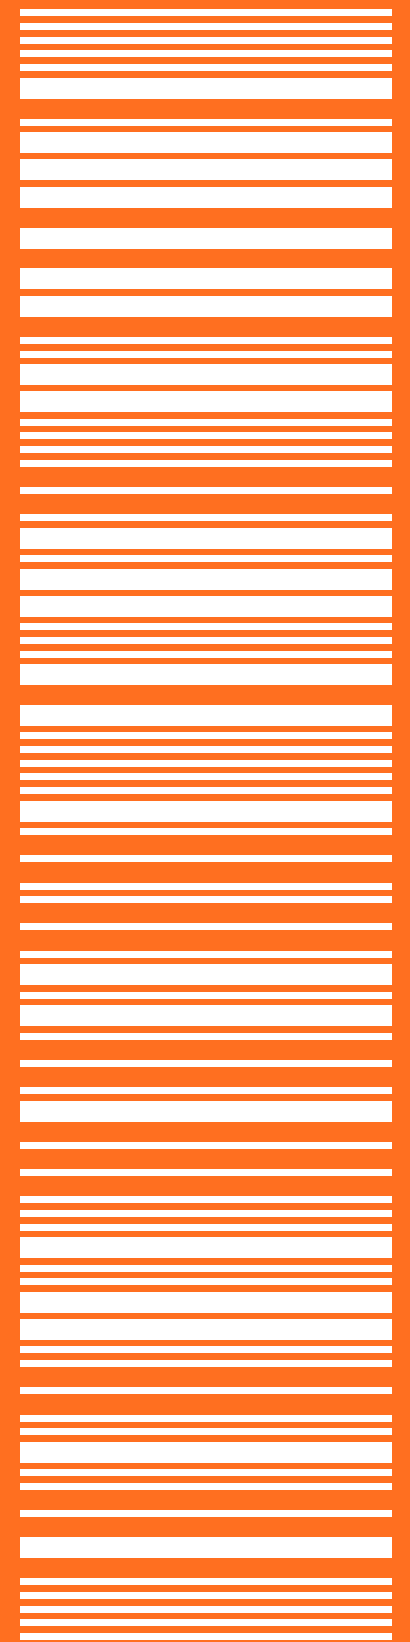

MAYME? fragrances immediately transport you to your happy place: from a cosy evening in a snowed-in chalet to the treasured memory of endless summer in which childhood never really ends, they help you relive your most cherished moments, wherever you are.

Our scents create an intimate yet tangible aura that does not invade the personal space of others while helping you maintain a delicate balance even in turbulent conditions. Their compact size makes MAYME? fragrances ideal travel companions.

ABOUT THE PERFUMER

Born and raised on the shores of the world's oldest, largest, and deepest freshwater Lake Baikal, Marie Molchanova has always been infatuated by the rich olfactory experiences the nature has to offer. Having travelled the entire world as a senior cabin crew member of an international airline, she then embarked on a journey to become a trained perfumer.

Years later, she graduated from the Grasse Institute of Perfumery and together with her former flight crew established MAYME? — a unique fragrance brand that offers olfactory journeys to dream destinations.

OUR FRAGRANCES

The background is a solid orange color. Overlaid on this are four white line-art outlines of perfume bottles. One bottle is in the center, slightly to the left. Another is at the top center. A third is on the right side, taller than the others. A fourth is at the bottom right. The outlines are simple, showing the basic shape of each bottle without caps or labels.
