# QA & SUSTAINABILITY

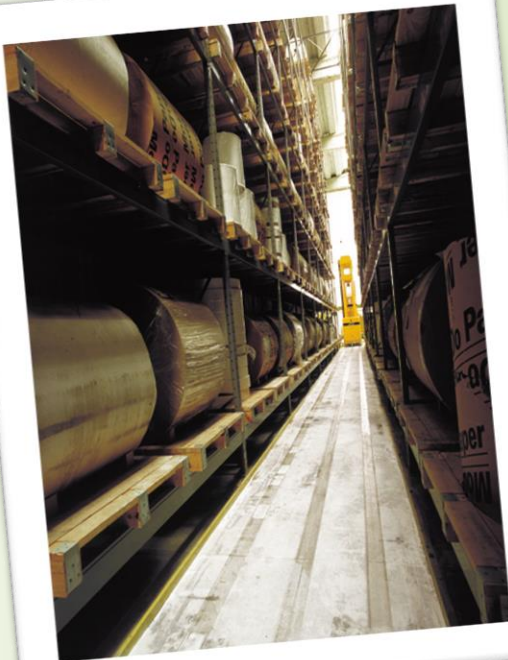

- ✓ **ISO 9001** Quality Management System
- ✓ **ISO 14001** Environmental Management System
- ✓ **ISO 45001** Occupational Health & Safety Management System
- ✓ **ISO 50001** Energy Management System
- ✓ **ECOVADIS GOLD supplier** – evidence-based online CSR assessment platform
- ✓ **SEDEX certified supplier** – membership organisation promoting sustainable business practices and responsibility throughout the supply chain by better managing social and environmental performance and improving working conditions
- ✓ **SMETA 4P audited company**– social audit for SEDEX certified suppliers focusing on working conditions, occupational health & safety and work ethics
- ✓ **FSC MIX & FSC RECYCLED certified company** – our products are made of paper made from responsibly managed forests and controlled sources (CoC - Chain of Custody)

# QA & SUSTAINABILITY

- We are actively working towards achieving **B-Corp certification**;
- We have **sustainability performance indicators** developed in co-operation with the University of Bologna;
- In the last few years we have invested in **energy efficiency programmes** resulting in a reduction in consumption of more than 40% compared to 2018; we have a project in the pipeline for the installation of solar panels for approx. 500 kW which will cover approx. 25% of our energy requirements;
- We use **100% certified «green» energy from renewable sources**;
- We monitor our **CO<sub>2</sub>eq emissions according to Scope 1 - 2**. Our gas is CO<sub>2</sub> free. We compensate our carbon emissions with carbon credits. This has allowed us to reduce emissions by more than 90% compared to 2018.
- We have **disbanded all solvent based inks**, reducing volatile organic compounds and improving work conditions;
- We monitor our **waste production and water management**. **By 2026** we will make further investments to make our product even more sustainable:
  - **Recovery of 90% of water waste** from production using a water treatment system;
  - **Reduction of up to 70% of waste products** and adding value by **re-using** in the production process;
  - **Near zero waste to landfill**;

# Our factory in Formigine (IT)

- ✓ Multiple production lines for machine-made branded paper carrier bags and paper e-commerce envelopes
- ✓ Flexo printing UTECO (paper rolls), water-based varnishing (gloss, matt, water-repellent, soft touch), UV varnishing, hot foil, embossing and lamination (PPL, acetate cellulose films)
- ✓ 8000 m<sup>2</sup> automated warehouse for faster and more precise order processing and management
- ✓ Logistics services for distribution to warehouses / hubs or directly to individual stores
- ✓ R & D
