The **LineaBold Sport** Outwear is inspired by army jackets, reinterpreted in our invincible “Mercury” nylon. The Angels of our brand are the protagonist, they are enclosed in blue background with red edge line, placed obliquely on the left shoulder with 4 buttons to convey dynamism with a touch of transgression.

The front multipurpose pocket unique with its 4 eyelets, one of which is red, as the edge frame of the Angels logo. The inner lining is enriched by the personalised fabric with Angels who “embrace” us.

The red calf leather trimming strap on the back side makes this garment unique, thanks to the iconic LineaBold metal tips, emphasizing the extreme care for details and the uniqueness of design.

PIERO **PG** GUIDI

Inspired by the creative archive, we present a new version of the **PG1970 LogoBigMania** line.

The PG monogram pattern in a large format is emphasised by a mix of giant checkered interweaving in soft and natural colors. The clothing collection features safari-inspired garments reinterpreted and enriched with calf leather details. The accessories designed for a stylish contemporary traveler, who loves to distinguish himself, are essential for this collection.
