PITTI IMMAGINE

eP SUMMIT 2026

Declaration

Pitti Immagine S.r.l is committed to making its website accessible, in compliance with Law no. 4 of January 9, 2004. This accessibility statement applies to: **https://epsummit.pittimmagine.com/**

Compliance Status:

Partially compliant

This website is partially compliant with the EN 301 549 “Accessibility requirements for ICT products and services”, the European Standard and Web Content Accessibility Guidelines version 2.2 AA standard.

Inaccessible Content

The contents listed below are inaccessible for non-compliance with the accessibility regulations

eP-summit

- C.9.1.1.1 – Non-text Content: Not all non-text content presented to the user has a text alternative that serves the equivalent purpose.

- C.9.1.2.1 – Audio-only and Video-only (Prerecorded): In some pre-recorded media of audio only or video only, equivalent information is not provided in an alternative format;

- C.9.1.2.3 – Audio Description or Media Alternative (Prerecorded): For some pre-recorded multimedia, an alternative or audio description is not provided;

- C.9.1.3.1 – Info and Relationships: In some cases, information, structure or correlations conveyed by the presentation of pages cannot be determined programmatically (or are not available through text);

- C.9.1.3.5 – Identify Input Purpose: The purpose of certain input fields that accept specific data is not communicated correctly to the a.t. or has not been implemented correctly;

- C.9.1.4.3 – Contrast (Minimum): Where not allowed, visual representation of text and images containing text does not always have the minimum contrast ratio required ***;

- C.9.1.4.4 – Resize text: Some texts, except for subtitles and images containing text, cannot be resized up to 200 percent without using assistive technologies and without losing content and functionality;

- C.9.1.4.10 – Reflow: Content that does not require a representation in two dimensions (such as data tables or maps) does not rearrange when resizing;

- C.9.1.4.11 – Non-text Contrast: For some essential components, even in different states, the color contrast compared to adjacent elements does not exceed the ratio of 3:1;

- C.9.1.4.13 – Content on Hover or Focus: In some cases, when mouse pointer (hover) passing or keyboard focus make content visible and hidden, there is no mechanism available to hide additional content without moving the mouse pointer or keyboard focus, the pointer cannot be moved to additional content without disappearing or additional content remains visible until the hover or focus event is removed, the user deletes it or his information is no longer valid except for some exceptions;

- C.9.2.1.1 – Keyboard: Some features cannot be activated by keyboard (or similar input interface);

- C.9.2.2.2 – Pause, Stop, Hide: Some animations, flashing, sliding or self-updates of information started automatically, with a duration of more than five seconds or presented in parallel with other content, there are no mechanisms to stop or hide them;

eP-summit

- C.9.2.4.1 – Bypass Blocks: There is no mechanism to skip content blocks that repeat on multiple web pages;

- C.9.2.4.3 – Focus Order: In some web pages that can be browsed sequentially and in which the navigation sequence affects their meaning and functioning, some objects that may receive the focus do not receive it with an order that preserves the meaning and operation of it;

- C.9.2.4.6 – Headings and Labels: Headers and/or labels do not sufficiently clarify content or functionality;

- C.9.2.4.7 – Focus Visible: On some interactive elements the focus indicator is not visible;

- C.9.2.5.3 – Label in Name: For some user interface components with labels that include text or text images, the name read by the a.t., does not contain the text that is visually presented;

- C.9.3.1.1 – Language of Page: In some pages, the language is not defined;

- C.9.3.2.2 – On Input: When the user changes the setting of any interface component (input), a context change occurs;

- C.9.3.3.1 – Error Identification: In some cases, when an input error is automatically detected, the erroneous item is not identified and/or the error is not described by text;

- C.9.3.3.2 – Labels or Instructions: In some cases no labels or instructions are provided when the content requires input actions by the user;

- C.9.4.1.2 – Name, Role, Value: In some cases, user interface components (including: module elements, script-generated links and components), name, role, state, property and values are incorrect or set, or the user a.t are not warned when these attributes change;

- C.9.4.1.3 – Status Messages: In some cases state messages are not presented to the user so that a.t. interpret them without having to move the focus;

Drafting of the Accessibility Statement

This statement was created on 14/11/2025**.**

The assessment was carried out by third parties through objective and subjective analyses (cf. Article 3, paragraph 1, of Commission Implementing Decision (EU) 2018/1523).

The declaration was last reviewed on 14/11/2025, respecting the recommendation to periodically review (at least annually) the accuracy of the statements contained in this accessibility declaration.

Feedback and Contact Information

Please adresse your feedback to: privacy@pittimmagine.com

Procedure for Submitting Reports to AgID

In case of an unsatisfactory response or failure to respond, within thirty days, to the notification or request, the interested party may forward a report to AgID, via certified email (PEC), to the following address: **protocollo@pec.agid.gov.it**

Information about the Website

1. The publication date: 09/12/2025
2. Usability tests have been carried out
3. CMS used for the website: Magnolia

Information about the Organization

1. The number of employees with disabilities present in the administration: 1
2. The number of workstations for employees with disabilities: 1
